2. Call for pricing on pools larger than 30,000 gallons or 20 x 40.

3. Pricing based on one hour service. Additional time to be billed at \$32 per 15 minutes plus cost of additional chemicals and materials.

4. If additional labor or chemicals are necessary to achieve a clear pool before beginning a program of regular maintenance, labor and chemicals needed will be billed on a time plus material basis and scheduled as a service call. Regina Pools cannot guarantee a clear pool in an hour long service. To clear a pool after an algae bloom, it is recommended that the client brush and add any other needed chlorine or algaecide when Regina Pools is not there. Clearing a green pool will take time.

**Optimizer is available at client request. A great option for maintaining algae free water all season long! Ask for details**
